

International Sustainability & Carbon Certification

SERVICE DESIGNED TO YOUR INDUSTRY

We **Global Gateway Certifications** (GGC), an independent certification body will be responsible for the International Sustainability & Carbon Certification (ISCC) certification services to satisfy your business.

We do certification assessment in accordance with the ISCC certification standard thus enable the industry to practice sustainable living environment for our future generation.

GGC has the solution to meet, with highly qualified and skillful auditors, we able to help you to improve what you do daily.

By choosing GGC as your certification body, you can be confident that your products will meet the strictest sustainability criteria and that you will receive the highest level of service from a trusted and reputable certification body.

What is ISCC Certification?

ISCC is a globally leading certification system and offers solutions to address sustainability requirements for all feedstocks and market covering food, industrial applications, feed and energy.

The entire ISCC system is designed to ensure sustainability, traceability and GHG (greenhouse gas) emission reduction along supply chain.

ISCC aims at the implementation of highest sustainability requirements in term of ecology sustainability, social sustainability, compliance with laws and international treaties, monitoring of GHG emissions and good management practices.

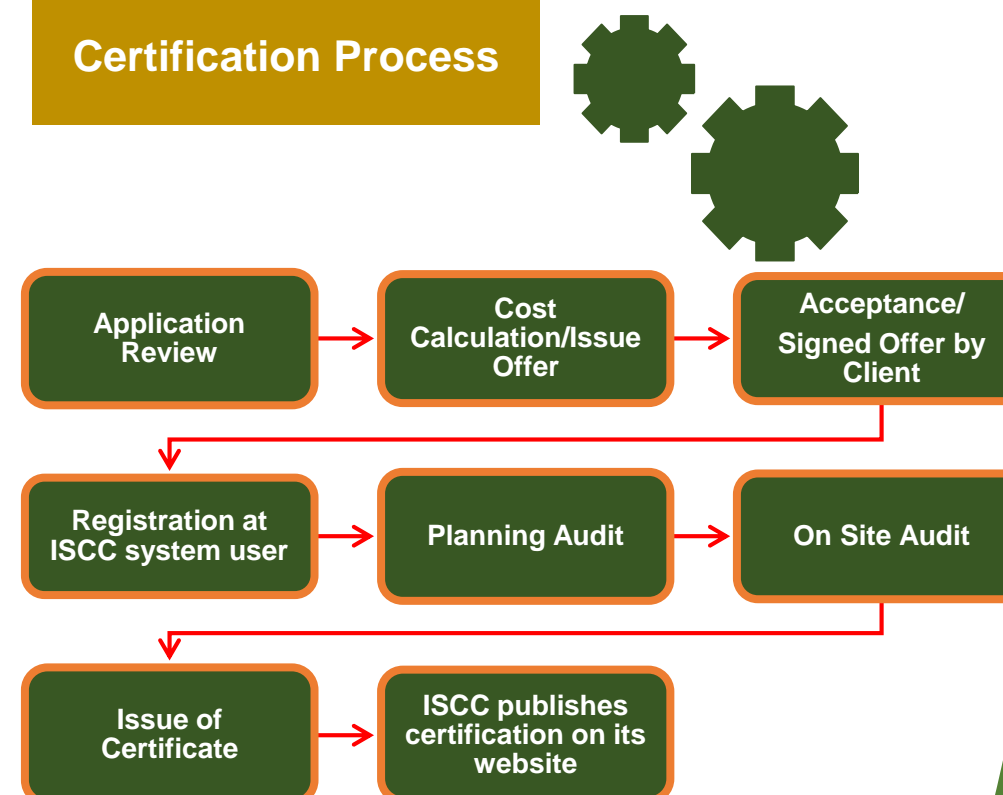

In general, ISCC covers the scope of sustainable agricultural biomass, biogenic wastes and residues, non-biological renewable materials and recycled carbon-based materials.
